## ORDER OF PROCEDURE

Mr. SCHUMER. Mr. President, I ask unanimous consent that notwithstanding rule XXII, upon the conclusion of morning business tomorrow, February 10, the Senate proceed to consideration of Calendar No. 264, H.R. 4445; that the time until 11 a.m. be equally divided between the two leaders or their designees; that at 11 a.m. the bill be read a third time and the Senate vote on passage of the bill without further intervening action or debate; further, that upon on disposition of H.R. 4445, the Senate proceed to executive session and resume consideration of the Vekich nomination and, at 11:45, the Senate vote on the motion to invoke cloture on the nomination, and, if cloture is invoked, the Senate vote on confirmation of the Vekich nomination at 1:45 p.m.; finally, if any nominations are confirmed during Thursday's session, the motions to reconsider be considered made and laid upon the table and the President be immediately notified of the Senate's action.

The PRESIDING OFFICER. Without objection, it is so ordered.

## LEGISLATIVE SESSION

## MORNING BUSINESS

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Senate proceed to legislative session and be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

## VOTE EXPLANATION

Mr. HAWLEY. Mr. President, had I been present, I would have voted no on the confirmation of Scott A. Nathan, of Massachusetts, to be Chief Executive Officer of the U.S. International Development Finance Corporation.

## REMEMBERING DR. DON GURNETT

Mr. GRASSLEY. Mr. President, I want to take a moment to recognize the life and memory of Dr. Donald Gurnett. Dr. Gurnett recently passed away following a lifetime of scientific curiosity and achievements. Dr. Gurnett studied, taught, and researched at the University of Iowa for more than 60 years.

His career was rooted in his childhood interest in flight, where he built rockets and model planes, which led to studying electrical engineering at the University of Iowa. During his studies, he had the opportunity to work and learn with Dr. James Van Allen, who helped launch the first U.S. satellite into space and established the field of magnetospheric space research. Dr.

Gurnett's success led to working on more than 30 spacecraft projects, including *Voyager 1* and 2 flights to the outer planets, the *Galileo* mission to Jupiter, and the *Cassini* mission to Saturn.

His legacy remains with the students he mentored by pushing them to take on important projects and work towards their own success. In 2019, I wrote about the importance of STEM education and the accomplishments by Drs. Van Allen and Gurnett. I think my words then still encompass the curiosity and passion that Dr. Gurnett carried with him throughout his life.

For the students across Iowa heading to class in the new school year, remember to dream big. Don't forget that a couple of farm boys from Mount Pleasant and Fairfax reached for the stars and wrote new chapters of space innovation and exploration. Their odyssey took them all over the world and their scientific quest took their research beyond the solar system to interstellar space.

#### TRIBUTE TO THERESE FRANCIS GILES

Ms. ERNST. Mr. President, I rise today to pay tribute to Ms. Therese Giles, a devoted public servant who tirelessly served our Nation with distinction in the Department of the Navy for almost four decades. Therese recently retired on December 31, 2021, after a successful 37-year government civil service career as an honored and distinguished senior flight controls computer scientist.

Therese's remarkable career and her immeasurable contributions to our national security can be categorized by so many unbelievable "firsts" and by a lifetime of selfless service.

As a child, Therese was always intrigued with the next technological offering—from watching NASA put the first man on the Moon, to the advances in next generation communications, to the invention of the integrated core processor. Inspired by these "firsts," she pushed to be one of the firsts in her class, team, and field, carrying a life's dream of making a difference in the technical field where women were very scarce and disappointingly undervalued.

At a time when women weren't encouraged to pursue technical careers and weren't thought of as computer scientists, Therese pushed forward and persevered to achieve undergraduate and advanced degrees in mathematics and computer science.

Wanting to be part of something bigger than herself, Therese found her calling with the Navy's aviation research and development command. As a junior software computer scientist in the mid-1980s, she was instrumental in developing the innovative, first-ever, advanced digital flight controls architecture that revolutionized the way all Navy and Marine Corps jet aircraft operated.

Therese was also instrumental in resolving the catastrophic failures of the V-22 Osprey in the early 1990s and gen-

erating the software solutions that eventually returned the V-22 to flight and to the successful combat operations of today.

With similar accomplishments across the F-14, A-6, F-18, E-2, and the F-35 spectrum of aircraft, Therese directly contributed and helped develop the flight control and safety control systems of the majority of every naval aircraft from 1985 to current day.

Throughout these many successes and "firsts," Therese has remained committed to supporting and inspiring the next generation of young women in STEM fields. Serving as an avid mentor, teacher, and leader of the people around her, Therese has been a North Star role model for generations of up-and-coming young women to follow their dreams and become technical leaders in public service.

In addition to her thirst for discovery and problem solving, a primary reason for Therese's tenacious focus is that she had personal "skin in the game" when it came to our Nation's security. Four of Therese's siblings proudly served in our Nation's military: Therese's brothers VADM Mat Winter, USN; CDR Tom Winter, USN; Capt. Steve Winter, USMC; and sister CDR Elizabeth Winter Scruggs, USNR, all put their lives in harm's way during their military careers to ensure our Nation's security. Therese's husband, Tim, is himself a retired member of the government civil service and an Army veteran. This is a family where duty and service run deep.

Therese, as you and your family celebrate your well-deserved retirement, I congratulate you and thank you for almost four decades of unbelievable and lasting impact. I thank you for the many years of sacrifice you and your family have made in service to our Nation. I join my colleagues in the Senate and all Americans in expressing our sincere appreciation and wish the very best for you, your husband, your son Eric, and daughter Meghan on your next exciting chapter.

#### ADDITIONAL STATEMENTS

##### TRIBUTE TO GLORIA BLICK

• Mr. BLUMENTHAL. Mr. President, today I rise to recognize Mrs. Gloria Miller Blick, a Connecticut resident who turns 100 on March 1, 2022.

Mrs. Blick is a lifelong advocate for the elderly, who has worked tirelessly to inspire positive change.

She was appointed to the Commission for the Aged by then-mayor of Stamford, Dannel Malloy. Mrs. Blick was also active as a member of Stamford's Smith House Nursing and Rehabilitation Center's board of directors and Southwest CT Agency on Aging's advisory board. Later, she served 8 years as the chairwoman of Stamford's Senior Centers board of directors.

Mrs. Blick's advocacy had far-reaching results. Passionate about providing

end-of-life options and other choices for the elderly, she spoke before the Connecticut State Senate. Her statement took prominence in the State's discussion regarding access to medical marijuana for elderly people with glaucoma, a condition she has faced for nearly two decades. Her commitment to supporting those who are marginalized and underserved inspired her son, Dr. Gary Blick, to pursue a medical career and a lifetime of humanitarian work. She even worked as the office manager for his practice for over 20 years and his billing specialist for over 30, commuting independently at age 97.

A remarkable advocate, I applaud Mrs. Blick on her outstanding record of service. I hope my colleagues will join me in congratulating Mrs. Gloria Blick, her son Gary, and the rest of her family on this milestone of her 100th birthday.●

#### REMEMBERING HENRY C. "HOPPY" SHORES

• Mr. MANCHIN. Mr. President, I rise today to honor the life and legacy of a dedicated public servant, Army veteran, proud West Virginian, and my very good friend, Henry C. "Hoppy" Shores.

Put simply, Hoppy embodied what it means to be a true West Virginian, and the legacy he has left behind is an important part of our heritage. I believe that there is no greater accomplishment than being in a position to give back to your community, and Hoppy's work in public service truly benefited our home State in a profound way that touched countless lives. First Lady Eleanor Roosevelt once said, "Since you get more joy out of giving joy to others, you should put a good deal of thought into the happiness that you are able to give." In that spirit, I am forever grateful to Hoppy for his commitment to his community and our shared passion for serving the people of West Virginia.

Born in Dunbar in 1930 to the late Henry Eugene and Mary Elizabeth Shores, Hoppy spent much of his life in the Kanawha Valley. He excelled in athletics as a legendary running back for Stonewall Jackson High School. As the star of his 1947 State championship team, Hoppy capped off his high school career as a Kennedy Award winner. In addition, he held a longstanding record in the 440-yard dash and was elected class president his senior year. Even then, his leadership skills were widely recognized. Following his glowing high school career, Hoppy attended West Virginia University on the Loyalty Endowment Scholarship, where his wide range of accomplishments continued.

Hoppy's life of service began in the U.S. Army, where he rose to the rank of major. I have always said that West Virginia is home to the most patriotic, hard-working people in the Nation; and Hoppy was no exception. Returning to Kanawha County after his military
